PROFESSIONAL SUMMARY

Design leader with 10 years of experience spanning freelance brand and web design, enterprise UX consulting, and in-house design team leadership. Builds and manages high-performing design functions while remaining an active contributor, owning design system architecture, digital CI, sales journey design, and multi-brand campaign delivery across five insurance brands. Translates complex business problems into scalable, measurable design outcomes at the intersection of design, data, and commercial strategy.

EXPERIENCE

TELESURE INVESTMENT HOLDINGS (TIH) · Johannesburg, South Africa

Design Lead & Manager — Pre-Login/Sales · Dec 2023 – Present

- Lead a team of five designers across four business verticals — Personal Lines, Value Added Products, Marketing Enablement, and Business Insurance — accountable for output quality, workload prioritisation, and individual career development.
- Architected and own the 100 Blocks design system: a reusable, CMS-editable component library with a live technical specification, built on Optimizely CMS, enabling non-technical marketing teams to publish and manage pages across five insurance brands without developer involvement.
- Own digital design delivery across five insurance brand websites: ensuring campaign output, SEO alignment, and AEO-informed page structure meet business and marketing objectives.
- Own and lead the design of all insurance sales and acquisition journeys across the full TIH product stable: online flows for all five brands.
- Execute visual design for digital campaigns across all five brands and maintain the digital CI for each brand within the group.
- Manage ongoing digital collaboration with contracted CRO and SEO agencies — aligning design decisions with agency strategy and translating recommendations into page and component-level execution.
- Liaise with external design and branding agencies on behalf of the digital team, managing briefs, feedback cycles, and brand consistency across all touchpoints.

- Drive design decisions using ContentSquare behavioural analytics & informing conversion sequencing, zone-by-zone UX optimisation, and page structure across all brand sites.
- Build and present quarterly design roadmaps to executive leadership, translating design strategy into commercial and business impact terms.
- Lead AI innovation and design tooling adoption across the digital team — driving procurement decisions, capability uplift, and internal advocacy for emerging tools.
- Manage end-to-end designer recruitment including brief writing, candidate assessment, and structured onboarding.

FREETHINKING (EOH SUBSIDIARY) · Johannesburg, South Africa

Senior Designer · Jun 2023 – Nov 2023

Old Mutual

- Led UX and visual design for the SmartGoals financial wellness feature within the MyOldMutual mobile application, working alongside McKinsey; designed the animation system translating static imagery into personalised motion, user journeys, usability testing.

Toyota

- Led redesign of the Toyota Insurance app and the E-Toyota 1 internal dealer platform, ran user interviews, dealer workshops, data analytics, and usability testing sessions end-to-end as sole designer on the engagement.

EOH Holdings

- Owned the internal intranet redesign as sole designer, ran stakeholder design sprints, delivered rapid prototypes, and conducted moderated usability testing; secured the development contract following stakeholder playback of testing results.

IQBUSINESS · Johannesburg, South Africa

Senior Associate Consultant — UX/UI Design · Jan 2022 – May 2023

Santam

- Embedded as sole designer on the reinsurance pricing platform, led end-to-end UX design to migrate legacy Excel-based workflows to a modern digital platform serving internal stakeholders; drove design-to-development handover using Material Design System in agile sprint cycles with product owners, business analysts, testers, and developers.

Standard Bank Mauritius

- Sole designer on the digital account opening mandate form, led digital transformation of a physical form process, owning discovery, UX design, and developer handover.

IQbusiness (Internal)

- Trained and mentored two Associate Consultants through onboarding and first client engagements — progressing from general consulting capability coaching to hands-on UX/UI skill development.

FREELANCE — GRAPHIC & WEB DESIGN · Johannesburg, South Africa

Independent Designer · 2016 – 2022

- Built and scaled an independent design practice through organic social media presence and paid digital advertising — self-managing all client acquisition, commercial negotiation, and delivery.
 - Delivered brand identity work across logos, business cards, and digital assets for direct clients and small businesses.
 - Operated a consignment model with multiple companies — productising design output and negotiating revenue-share arrangements rather than flat-fee billing.
 - Designed and built client websites on Squarespace; managed all briefs, timelines, and client relationships independently.
-
